

Day 2 - March 23, 2018		
	Hall A	
7.00 - 8.00	Registration	
8.00 - 8.10	Inauguration and Welcome address: S Rajasekaran	
8.10 - 8.20	About CSRS and CSRS AP - Kuniyoshi Abumi	
8.30 - 9.30 (each talk for 8 min)	<b>SYMPOSIUM - Current Concepts in Cervical Spondylotic Myelopathy (CHAIR PERSON - S Rajasekaran, Jeff Wang)</b>	
	Natural course of cervical spondylotic myelopathy -The significance of preventive surgery for age findings - Masatoshi Sumi	
	Level Diagnostic Neurology of Cervical Myelopathy - Takachika Shimizu	
	Prognostic factors in patients with cervical myelopathy - Yasushi Oshima	
	Brain functional connectivity can be a novel biomarker for neurological recovery for cervical myelopathy - Takashi Kaito	
	Posterior Correction and Fixation for Cervical Myelopathy Caused by OPLL with Kyphosis - Kuniyoshi Abumi	
	The treatment for cervical spinal stenosis: laminoplasty or laminectomy - Yu Sun	
9.30 - 10.30 (each talk for 15 min)	<b>CHAIRPERSON - Prof. Yu Sun and Prof Daniel Riew</b>	
	<b>Plenary lecture 1: Jeffrey Wang - Cervical Sagittal Balance and Alignment</b>	
	<b>Plenary lecture 2: Ronald Bartels - Reporting Clinical Relevance</b>	
	<b>Plenary lecture 3: Takachika Shimizu - Posterior Meticulous Surgical Approach to High Cervical and CVJ</b>	
10.30 - 10.45	<b>COFFEE BREAK</b>	
	Hall A	Hall B
10.45 - 11.45 (each talk for 8 min)	<b>1 Cervical radiculopathy (Moderator: Prof. Dong Ho Lee and Prof Shaheel Majid)</b>	<b>2 Cranio-vertebral junction surgeries (Moderator: Prof.Ken Ishii and Dr SK Srivastava )</b>
	Epidemiology of spinal disorders - Akihito Minamide	Halo vest in complex cervical situations - Shankar Acharya
	Cervical radiculopathy - Natural History - Bharat Dave	Strategies for RA cervical spine -Is Occipito-Spinal Fusion too much? - Masatoshi Sumi
	Cervical ESI "Safety concern" - WaratTassanawips	Microscopic posterior decompression surgery in upper cervical spine - Yasushi Fujiwara
	Microsurgical posterior discectomy for cervical disc herniation - Nobuhiro Tanaka	Atlantoaxial dislocation- evolving concepts - Atul Goel
	Posterior foraminotomy for recurrent or persistent foraminal stenosis following ACDF - JB Park	Atlanto-axial fixation using C1 lateral mass screws - Jun Mizutani
	Disc preserving surgery - functional discectomy ( Video) - Satish Rudrappa	Anterior facet distraction for AAD and basilar invagination - Sushil Patkar
11.45 - 12.45 (each talk for 8 min)	<b>3 OPLL - surgical techniques (Moderator: Prof. Nobuhiro Tanaka and Dr Bhavuk Garg)</b>	<b>4 Upper cervical injuries (Moderator: Prof. Masatoshi Sumi and Dr Subhir Jhaveri)</b>
	Surgical strategy for the treatment of cervical OPLL - Hisanori Mihara	Atlantoaxial dislocation in ankylosing spondylitis: Reducible vs. Irreducible - Jui-TengChien
	Ossification of posterior longitudinal ligament - How to manage dura tear- Takeo Furuya	Treatment strategy of chronic atlantoaxial rotatory fixation - Ken Ishii
	K-line Tilt, a Predictor of Postoperative Kyphosis after Laminoplasty in OPLL - Kenichiro Sakai	Diagnosis and treatment of complicated high cervical spine injuries.- JB Park
	How I do (Video Session) : Minimal access hemilaminotomy in cervical Intra dural tumors - J Parthiban	C1-C2 OA - Bharat Dave

	Anterior decompression of cervical OPLL- more preferable -VIDEO- Dong Ho Lee	Anterior plate screw fixation with anterior trans articular screws with unstable odontoid fractures- C1-C2 joint using mini-plates - Sushil Patkar
	Surgical treatment of OPLL in cervical spine - Anterior or Posterior? - Yasutsugu Yukawa	Anterior odontoid screw fixation -tips and pitfalls - Kazuhiro Chiba
<b>12 45 - 01 45</b> (each talk for 10 min, and discussion for 10 min)	<b>GLOBUS Lunch Symposium 1 - How I would have done it differently? -Moderators: Prof John Heller &amp; Prof Chung Chek Wong</b>	<b>DEPUY Lunch Symposium 2 - Complex case discussions - Moderator: Prof S Rajasekaran &amp; Dr Kazuhiro Chiba</b>
	Dr Daniel Riew, USA	Dr Gabriel Liu, Singapore
	Dr Shashank Kale, India	Dr Hisanori Mihara, Japan
	Dr Kuniyoshi Abumi, Japan	Dr Yu Sun, China
<b>01 45 - 02 45</b> (each talk for 5 min)	BEST PAPER PRESENTATION -CSRS AP 2018 (Chairperson: Prof. Kuniyoshi Abumi and Dr Satish Rudrappa)	FREE PAPERS 10 (Moderator: Dr Gabriel Liu, Dr Rajakumar Deshpande)
<b>02 45 - 03 30</b> (each talk for 8 min)	<b>5 Cervical disc arthroplasty (Moderators: Prof Carmen Vleggert and Dr Arun Bhanot)</b>	<b>6 Sub-axial trauma - facetral injuries (Moderators: Prof Takachika Shimizu, Dr Prashant Kekre)</b>
	The current status and the future of cervical arthroplasty - Yu Sun	Functional outcomes of cervical spinal cord injuries in the elderly - Hideki Nagashima
	C1-2 arthroplasty - Praveen Salunke	Unifacetal dislocation - Principles of management - Ketan Khurjekar
	Long-term follow-up after TDR: a minimum 10-year clinical outcome - Zhou	Simplified classification system - sub-axial spinal injuries - HS Chhabra
	Cervical disc morphometry - Arvind Kulkarni	Odontoid fractures in the elderly. - Claes Olerud
	Arthroplasty adjacent to a spinal fusion - Rajakumar Deshpande	How should we manage acute cervical spine and spinal cord injuries in emergency room? - Yasuo Ito
<b>03 30 - 03 45</b>	Coffee Break	
<b>03 45 - 04 30</b> (each talk for 8 min)	<b>7 Revision cervical surgery (Moderators: Dr Arvind Kulkarni and Dr Johannes Schroeder)</b>	<b>8 Imaging &amp; Innovative Techniques (Moderators: Prof. Claus Olerud, Dr Upendra Bidre)</b>
	Post-operative dysphagia in cervical spine surgery - C Vleggeert-Lankamp	Age-related cervical intervertebral disc degeneration - Longitudinal observation by MRI - Morio Matsumoto
	Pseudoarthrosis in cervical spine surgery - Ronald Bartels	Number of purchase points for posterior cervical fusions - Prof John Heller
	Intraoperative spinal cord monitoring for cervical laminoplasty - Nobuhiro Tanaka	Minimally invasive posterior decompression surgery using endoscope - Akihito Minamide
	Decompression technique during posterior C1-C2 stabilization - Jin Sup Yeom	Anterior pedicle screw technique with radiolucent drill-guide system - Yasutsugu Yukawa
	Persistent Symptoms after Cervical Spine Surgery: How to Treat? - Torphong Bunmaprasert	Anterior Cervical Decompression for OPLL using O-arm Navigation System - Kenichiro Sakai
<b>04 30 - 06 00</b> (each talk for 4 min)	Free Papers 15 (Chairperson: Dr Torphong Bunmaprasert, Prof Ronald Bartels)	Free Papers 15 (Chairperson: Prof John Heller, Dr Ketan Khurjekar)
<b>06 30 - 07 30</b>	Welcome Dance Programme	
<b>07 30 onwards</b>	Dinner (All delegates and faculty)
